Professional Summary

Computer Science undergraduate focused on Product Design (UI/UX) and Frontend Development, with experience designing [project or interface] to create simple, intuitive digital experiences. Enjoy turning user needs into polished interface designs in Figma and bringing them to life with frontend technologies. Currently building skills in HTML, CSS, JavaScript, and React, with a focus on creating reusable design-system components and responsive layouts.

Education

Deogiri Institute of Engineering & Management Studies — **Chhatrapati Sambhaji Nagar**
B.Tech Computer Science & Engineering : CGPA – 6.36 — Aug 2023 – Aug 2027

Dnyankunj Arts, Commerce & Science Junior College — **Chhatrapati Sambhaji Nagar**
PCMB : Percentage – 74.33% — Jan 2022 – Jan 2023

Varad Vidya Mandir & Rajhans Madhyamic Vidyalay — **Chhatrapati Sambhaji Nagar**
SSC Percentage – 91.80% — June 2020 – June 2021

Skills

Hard Skills:

UI/UX Design: User Centered Design, Clean & Minimal UI Design**,** Wireframing, Prototyping, User Flows, Interaction Design, Design Systems, Component Libraries, Responsive Design.

UX Research: User Flows, User Personas, Competitor Analysis, Usability Testing, User Feedback & Iteration

Tools: Figma, FigJam, Framer, Adobe XD, Miro, Balsamiq, Inkview.

Design Systems: Reusable Components, Component Libraries, Design Tokens, Typography, Color Theory, Spacing Systems, Design Consistency.

AI-Assisted Development: ChatGPT, UX Pilot, AI-assisted tools like Antigravity, Cursor, Codex, Claude Code, Google Stitch.

Soft Skills:

Attention to detail, Teamwork and collaboration, Willingness to Learn, Adaptability, Time Management.

Projects

1. BillWise – Personal Finance & Bill Management app

- Designed a Mobile-first finance management experience for tracking recurring bills, upcoming due dates, shared expenses, and monthly spending. Structured user flows and information architecture to simplify everyday financial management.
- UI/UX Tools**:** Figma, UX Pilot, Auto Layout, Interactive Prototyping, Design System.

2. Sanovia – Healthcare Appointment Booking app

- Designed a user-centered appointment booking experience with user journeys, wireframes, and interactive prototypes for doctor discovery, slot selection, and appointment management, focusing on accessibility and simplified navigations.
- UI/UX Tools**:** Figma, UX Pilot, Auto Layout, Interactive Prototyping, Adobe Xd, Design System.

3. ReWear – Sustainable Fashion Marketplace

- Designed a responsive e-commerce experience with wireframes and interactive prototypes for product discovery, search filters, product details, and checkout, focusing on seller trust, visual hierarchy, and consistent UI patterns, and consistent elements.
- UI/UX Tools**:** Figma, UX Pilot, Auto Layout, Interactive Prototyping, Adobe Xd, Design System.

Certifications

- Complete Figma Megacourse: UI/UX Design(Udemy)
- AI Tools Workshop(be10X)
- HTML, CSS & JavaScript Certification(Unstop)
